New media college 2019-Certified Data Analyst

SQL, Advanced Excel, BI- Tableau, Data collection & optimization, Business & Marketing Analysis reports, Google Analytics etc.

Projects

Poker-underdog

Poker-Underdog is an interactive web app I designed for keeping scores and statistics on home poker games. The player can create/join groups, look at his personal stats and manage a home Poker game using this platform.

The app was built using React, NodeJs and Mongo ATLASDB.
